

Berliner Park Vendor FAQ Details

- Electric – Very limited. Most vendor locations do not have electric. It's a good idea to bring a generator.
- Water – You will not have the ability to hook up a hose to running water, but if you have buckets there is a faucet on the side of the "Maintenance" building near field 5. There is a big electric box in front of the faucet. You are welcome to get water from there.
- Drainage – You will need to have blue bellies as there are no drains for you to run hoses into
- If you are operating out of a tent setup be sure to bring something to lay on the ground. We can not have grease leaking out on the ground.
- Opening & Closing times – Please refer to the schedule for this. Remember we do not have schedules until week of tournaments.
- Propane – If you are using Propane please ensure you have all tanks chained down as fire inspectors come around from time to time.
