

# Wrights Concessions

## Sand Key Emergency Plan

This plan is in place to inform all staff and Pinellas County personnel, of the procedures Wrights Concessions will take in the event of an “Emergency.” and/or Hurricane forecasted to hit the Clearwater/Sand Key Beach area.

Wrights will immediately reach out to Pinellas County to determine whether “Option A” or “Option B” is the most feasible. This is dependent on the type of emergency. If it is a Hurricane, the storm track, category, and opinions of Pinellas County will play a major role in what option we agree on.

### Option 1:

- Cease all beach operations 3 days prior to the storm being forecasted to make landfall.
- Remove all “Beach Chairs” & “Umbrellas” from the beach area and store them inside the “warehouse.”
- Remove “Beach Chair Hub” trailer and store within Wrights contracted area inside the “warehouse.”
- Remove all picnic tables and umbrellas located around the concession trailer, and store in Wrights contracted area inside the warehouse.
- Remove Concession Trailer from beach, and store in Wrights contracted area outside the warehouse.
- Remove “Grease Trap” and store inside the concession trailer.
- Remove all Wrights Concessions removable signboards located throughout the facility and place inside the contracted area of the warehouse

### Option B:

- Everything listed in option A.
- Additionally, all equipment with tires would be vacated from Sand Key and stored in an “off-site” location. (Tractors, quads, Golf Carts, Cargo Trailer, Concession Trailers)
