

Spindler Park Vendor FAQ Details

- Electric – Very limited. Most vendor locations do not have electric. It's a good idea to bring a generator. There is no work around here. I will show images below detailing available electric.
- Water – There is no running water. You will need to bring all water with you.
- Drainage – You will need to have blue bellies as there are no drains for you to run hoses into
- If you are operating out of a tent setup be sure to bring something to lay on the ground. We can not have grease leaking out on the ground.
- Opening & Closing times – Please refer to the schedule for this. Remember we do not have schedule times until week of tournaments.
- Propane – If you are using Propane, please ensure you have all tanks chained down. Fire inspectors come around from time to time.

Available Electric at the “North Location” Refer to map.

Description of available electric at “North Location”

There are at least another (6) 110 outlets in addition to these 4. Remember electric is limited so there are “NO PROMISES”! This is located on the “South Location”

This is also located at the “South Location”. These are 30amp plugs. Zoom in on the image to see it better.
